Quick Reference Tip Sheet

General Information

| Task	Process Information
Creating an eProcurement Requisition **(For non-Asset Purchases - ONLY)** **Note:** If additional assistance is needed, please contact the respective AOC Department staff or the JIS Service Desk.	A non-asset requisition is created in the eProcurement module for procuring non-asset goods/services. For asset purchases (accounts 0701, 10xx, 11xx, 14xx), please see the appropriate tip sheet. **NOTE - for AOC, District Court, Circuit Courts, Appellate Courts, and Programs:** Per the FY17 Procurement Policy Change, Receipts will no longer be REQUIRED for Services under Corporate POs (POs created by DPCGA). However, receipts are required for all Goods received, and POs created by DPCGA for Goods will be set to Receipt Required. If you have purchases from a vendor for both Goods and Services, please make sure you create separate lines on your Requisition, so separate lines will be created on your PO. If there is any question by DPCGA as to whether the item is considered Goods or Services, the PO will default to Receipt Required. The Line Details on your PO will indicate if receiving is required. If you want Receipts for Services on your PO, please indicate this request on your Requisition.
